“Don’t forget to GO OUTSIDE and PLAY” – Unknown

MAMAGREEN, making a difference in outdoor design

Our brand exemplifies a luxurious casual lifestyle, where mind and body relax. Constantly evolving collections are developed to highly exacting standards, for maximum comfort and performance.

Designed to last in any outdoor environment, MAMAGREEN furniture is manufactured using majority recycled or recyclable materials. More than 90% of the teak is carefully sourced from abandoned buildings, with the remainder coming from strictly managed plantations. Selecting MAMAGREEN is making a conscious choice for style combined with durability.

Available worldwide, MAMAGREEN has its US Showroom in Chicago, and warehouse in Richmond, VA and distributing partners in Australia, Mexico, Switzerland, Germany and Turkey. MAMAGREEN’s design studio and manufacturing are organized under one roof in Indonesia, ensuring the best customer service and quality control.

Product concept, manufacturing process and material selection all have the same goal: creating contemporary outdoor furniture, made to last in any outdoor environment. MAMAGREEN furniture pieces are used in residential and commercial projects globally, from the cold in Zurich and Toronto, to the heat in Houston and Sydney, to properties on the open ocean.

DAISY

NEWS 2021 - MAMAGREEN Design Lab

“a flower blossoms for its own joy”

- Oscar Wilde

Just like how being in a field of daisies brings back good memories, MAMAGREEN's DAISY collection is designed to create a summertime mood and enhance positive vibes.

The DAISY chairs and seater chairs are inviting, comfortable, and fun to look at.

The rounded barrel style backrest comes in two distinct versions: “DAISY RAE” which has a hand-fitted rope backrest developed for outdoor use and “DAISY MAE” which has a meticulously handwoven wicker back. Each version is available in four distinct colors, allowing you to create unique patterns from soft and natural to bold and vibrant.

Three distinct leg options are offered for the DAISY dining chairs, depending on style and function: tapered aluminum legs, a swivel base or teak round legs.

With its sturdy powder coat base, the swivel versions are great for outdoor clubs, rooftops or high wind areas.

DAISY dining and chat tables have rounded edges, creating a safe and friendly look all at the same time. The tabletop, made of High Pressure Laminate (HPL) and an upcycled teak wood accent, is durable and low maintenance. Upcycled teak is also used for the legs, creating an interesting mix of materials.

Designed for both residential and hospitality use, DAISY is perfect for small spaces and balconies. This versatile range will fit perfectly at home in an urban oasis, a multi-family rooftop, senior living projects, or at a restaurant or bistro, with options for dining, bar and lounge.

With unlimited bespoke options, thanks to our wide range of colors, and the unique mix of materials, design lovers will find the perfect spot for their own DAISY, inside or out.

MAXXIMUS

NEWS 2021 - MAMAGREEN Design Lab

Size matters, or does it? Indeed, it does when it comes to extendable dining tables.

MAMAGREEN's expandable table collection just got extended with the longest table to date: the MAXXIMUS.

Designed to be the perfect table for entertaining family and friends; MAXXIMUS comes in two different sizes. Our largest table extends in 3 stages up to an amazing 166" (425 cm) while the other table is slightly shorter, extending in 2 stages up to 135" (345 cm).

The top of the MAXXIMUS is available in either our low maintenance High Pressure Laminate (HPL) or in eco-friendly recycled teak wood. The frame is made of a sturdy powder-coated steel, while the smooth extension mechanism uses German hardware.

Completing the collection, matching benches are available to create a picnic style arrangement.

Extend your outdoor activities to the maximum.

Boulevard

NEWS 2021 - MAMAGREEN Design Lab

Long, low horizontal blocks of mixed materials layer together to create distinct architectural lounge groupings with a very contemporary look: Introducing “Boulevard”. Designed for luxury residential use and high-end hospitality, this collection is strikingly handsome, low maintenance, versatile, and comfortable.

Available in 2 colors (iron black / cotton white) the durable powder-coated aluminum base supports ergonomically shaped cushions in an attractive range of durable Sunbrella textiles. The same durable powder-coated aluminum pairs with low maintenance Italian High Pressure Laminate (HPL) to make up the Boulevard low tables.

Boulevard sunbeds are solid, minimalist pieces perfect around the swimming pool. Featuring: a handy attached side-table, a push button gas spring to allow for a smooth reclining experience, an ergonomically shaped cushion with a built-in headrest and small discrete wheels for mobility.

New for Mamagreen is the introduction of a double-sided lounge configuration, that can serve as a central gathering space, dividing spaces, a daybed or as part of a casual low dining ensemble. The optional adjustable shades add further function to this arrangement.
