**“TO THOSE WHO HAVE EXPERIENCED PASSION FOR FINESSE,
THE ORDINARY WILL NO LONGER APPEAL.”**

~ WILLEM ELSSCHOT ~
1882 - 1960

Begin jaren 90 werd Royal Botania opgericht. In die tijd bleef luxe en verfijning beperkt tot het interieur, en werden deze zelden buitenshuis aangetroffen. Ons doel was om daar verandering in te brengen. Dit boek is een getuigenis van waar onze inspirerende reis van liefde voor creatie, van passie voor perfectie en van streven naar uitmuntendheid, ons heeft gebracht. Ik hoop dat u ons enthousiasme zult delen en nodig u uit om u in vervoering te laten brengen door finesse.

La marque Royal Botania a été créée au début des années 90. À cette époque, le luxe et le raffi nement étaient presque exclusivement réservés au mobilier intérieur. Notre mission consistait à faire évoluer cette approche. Ce livre est le témoignage de l'évolution de notre entreprise par l'amour de la créativité, la passion de la perfection et la recherche de l'excellence. J'espère sincèrement que vous partagerez notre enthousiasme et vous invite à vous laisser séduire par la finesse.

Corría la década de los 90 cuando creamos la marca Royal Botania. En aquella época, el lujo y el buen gusto quedaban relegados a los espacios interiores. Rara vez podían encontrarse en muebles de exterior. Pero nosotros nos propusimos cambiar esa realidad. Este libro relata adónde nos ha llevado nuestro amor por la creación, nuestra pasión por la perfección y nuestro deseo irrefrenable de alcanzar la excelencia en lo que hacemos. Acompáñanos en esta aventura y déjate seducir por la elegancia.

Anfang der 1990er Jahre haben wir die Marke Royal Botania gegründet. Damals war hochwertiges MöbelDesign nur auf Innenräume beschränkt und die Gestaltung von exklusiven Outdoor-Möbeln noch nicht als designerische Aufgabe im Außenbereich erkannt. Unser Ziel war es, diese Lücke zu schließen. Dieses Buch ist ein anschauliches Beispiel dafür, wohin uns unsere Liebe für gutes Design, unsere Leidenschaft fürs Detail und unser Streben nach Perfektion geführt hat. Wir hoffen, dass Sie unsere Begeisterung teilen und laden Sie ein, sich von der Finesse verführen zu lassen.

Erano gli inizi degli anni '90 quando abbiamo creato il marchio Royal Botania. All'epoca, lusso e raffi natezza si limitavano agli spazi chiusi e molto raramente si ritrovavano negli ambienti esterni. Il nostro obiettivo era quello di cambiare quella abitudine. Questo libro è la testimonianza di dove ci ha portati il nostro stimolante viaggio di amore per la creazione, di passione per la perfezione, di sforzi per l'eccellenza. Mi auguro che condividerai il nostro entusiasmo e ti invitiamo a concederti un po' di raffi natezza.

In the early 90's, luxury and refined design were limited to indoor spaces and very rarely found outdoors.

Our goal was to change that.

We formed Royal Botania to create beautiful outdoor spaces. Our inspiring journey over the years has allowed us to channel our creativity and strive for excellence. The end result is a brand that indulges in comfortable, well-crafted, and superbly made outdoor furniture.

I hope you will share in our joy and celebration of all things beautiful, and welcome you to indulge in finesse.

OUR PRODUCTION

Om volmaakte producten te garanderen, vinden wij volledige controle over elke afzonderlijke stap van het productieproces een must. Daarom hebben we in 2002 besloten om een eigen productie op te richten, net buiten Bangkok, in Thailand. Daar zijn zo'n 400 mensen in dienst, die er alles aan doen om elk meubel dat de fabriek verlaat, de merknaam Royal Botania waardig te maken. Onder één dak van 13.000m² hebben we alle vaardigheden en de modernste machines geconcentreerd om dit mogelijk te maken. Alleen door een eigen productiefaciliteit te hebben, hebben wij de volledige controle over de werkomstandigheden. Wij zijn ervan overtuigd dat mensen zich gewaardeerd moeten voelen voor hun werk om gemotiveerd en gefocust te zijn. Liefde moet altijd van twee kanten komen. Daarom zorgen wij voor veel meer dan alleen een veilige en gezonde werkomgeving en gratis maaltijden. Wij bieden onze lassers, wevers, slijpers, technici, kwaliteitscontroleurs, monteurs,... gratis huisvesting op locatie aan, waar ze allemaal samen met hun familie kunnen wonen. Er is ook medische zorg, gratis Engelse les, sportactiviteiten en zelfs een kleuterschool voor de kleintjes. De Royal Botania productie, is dus veel meer dan alleen een hoogwaardige meubelfabriek, het is een grote, gelukkige gemeenschap!

Afin de proposer des produits parfaitement finis, nous contrôlons chacune des étapes de la réalisation. C'est pourquoi nous avons décidé en 2002 de construire notre propre usine près de Bangkok en Thaïlande. Nous employons près de 400 ouvriers passionnés par leur travail, Royal Botania peut se targuer d'offrir des conditions de travail décentes. Dans un espace de 13 000 m², nous avons réussi à réunir les meilleurs talents et des équipements de pointe. Étant donné que nous possédons notre propre usine de production, nous avons un contrôle total sur les conditions de travail de nos employés. Nous sommes convaincus que si le travail de nos employés est apprécié à sa juste valeur, ces derniers resteront motivés et donneront le meilleur d'eux-mêmes. L'amour et le respect sont des valeurs bilatérales. C'est pourquoi nous sommes très attachés à offrir un environnement de travail sain et des repas gratuits à nos employés. Nous leur offrons également des conditions d'hébergement décentes sur site. La plupart de nos soudeurs, tisseurs, meuleurs, techniciens, contrôleurs qualité, monteurs, etc., vivent sur place avec leurs familles. Nous proposons également des soins médicaux, des cours d'anglais gratuits, des activités sportives ainsi qu'une garderie pour les enfants en bas âge. Bien plus qu'une usine de mobilier de luxe, le site de production de Royal Botania est avant tout une communauté où il fait bon vivre !

Para asegurarnos de que nuestros productos sean perfectos, creemos que es crucial controlar de forma exhaustiva todas las fases del proceso de producción. Es por eso que en 2002 decidimos abrir nuestra propia planta de producción en las afueras de Bangkok, Tailandia. Allí trabajan unas 400 personas cuya misión es asegurarse de que cada pieza que sale de la fábrica esté a la altura de Royal Botania. En un espacio de 13 000 m² hemos reunido las habilidades necesarias y los equipos de última generación para hacer que eso suceda. La única forma de tener el control total de las condiciones de trabajo es con una fábrica propia. Estamos convencidos de que tienes que amar lo que haces para poder encontrar la motivación necesaria y hacer bien tu trabajo, y cuando hablamos de compromiso, creemos que hay que dar para recibir. Por eso queríamos ofrecer a nuestros empleados algo más que un lugar de trabajo seguro y limpio y comidas gratis. Muchos de nuestros soldadores, tejedores, operarios, técnicos, encargados del control de calidad, ensambladores, etc. tienen a disposición una vivienda dentro de las instalaciones para que puedan vivir allí con sus familias. También tienen acceso a atención sanitaria, clases de inglés gratuitas, actividades deportivas e incluso una guardería para los más pequeños. Royal Botania no es solo una fábrica de muebles de gama alta, ¡sino también una gran comunidad feliz!

Um einwandfreie Produkte zu gewährleisten, hat die vollständige Kontrolle jedes einzelnen Herstellungsschritts oberste Priorität. So haben wir uns im Jahr 2002 entschlossen in Thailand - nahe Bangkok - eine eigene Produktionsstätte aufzubauen. Dort beschäftigen wir heute rund 400 Mitarbeiter, die sich für die Herstellung jedes einzelnen Produkts verantwortlich fühlen. So trägt das neue Werk wegen seines hohen Qualitätsanspruchs seinen Namen Royal Botania zu Recht. Unter einem 13.000 m² großen Dach ist all unsere handwerkliche und technische Kompetenz vereint. Denn nur mit der Kontrolle der Arbeitsbedingungen vor Ort, kann man verantwortungsvoll ein Unternehmen führen. Darüberhinaus möchten wir, dass sich alle Menschen, die für uns arbeiten, als wichtiger Teil des Unternehmens fühlen. Achtung und Wertschätzung gegenüber Mensch und Umwelt gehören zu den Grundprinzipien unseres unternehmerischen Handelns. Darum bieten wir unseren Mitarbeitern vor Ort nicht nur ein sicheres, gesundes Arbeitsumfeld und kostenlose Mahlzeiten, sondern auch eine kostenlose Wohnung, wo sie zusammen mit ihren Familien leben können. Medizinische Versorgung, kostenloser Englischunterricht, sportliche Aktivitäten und sogar ein Kindergarten gehören ebenso zu einem angenehmen Arbeitsumfeld. Royal Botania in Thailand ist also weit mehr als nur eine Produktionsstätte für hochwertige Möbel der Premium-Klasse, sie ist eine verantwortungsvolle Gemeinschaft!

Per garantire prodotti perfetti, consideriamo un must il totale controllo di ogni singola fase del processo di produzione. Ecco perché nel 2002 abbiamo deciso di creare il nostro impianto di produzione, in Thailandia appena fuori Bangkok. Lì impieghiamo circa 400 persone dedicate a rendere ogni singolo pezzo all'altezza di portare il nome del marchio Royal Botania una volta che lasciano l'impianto. Per far sì che ciò accada, abbiamo concentrato sotto un tetto di 13.000 m² tutte le competenze e tutti i macchinari all'avanguardia. Solo avendo il proprio impianto di produzione, è possibile avere un controllo totale delle condizioni lavorative. Siamo convinti che le persone debbano sentirsi apprezzate per il proprio lavoro per essere motivate e focalizzate sul proprio incarico. L'amore deve sempre provenire da entrambe le parti. Ecco perché forniamo molto di più che un ambiente di lavoro sicuro e sano, e pasti gratuiti. Offriamo anche alloggi gratuiti in loco a molti dei nostri saldatori, tessitori, levigatori, tecnici, controllori della qualità, assemblatori... dove possono vivere tutti, insieme con le proprie famiglie. Inoltre, è prevista l'assistenza medica, corsi di inglese gratuiti, attività sportive e addirittura un asilo nido per i più piccoli. La produzione di Royal Botania è quindi molto più di una semplice fabbrica di mobili di alta gamma, è una grande comunità felice!

To guarantee flawless products, we consider full control of every single step of the production process a must. That is why we decided in 2002, to set up our own production plant, just outside Bangkok in Thailand. There we employ some 400 people, dedicated to making every single piece, leaving the facility, worthy of the brand name Royal Botania. Under one 13,000m² roof, we have concentrated all the skills, and all the state of the art machinery, to make that happen. Only by controlling a production facility, one has full control over the working conditions. It is our conviction, that people have to feel appreciated for their work, to be motivated and focused on their task. Love always needs to come from both sides. That is why we provide much more than just a safe and healthy working environment, and free meals. We also offer free on-site housing, to many of our welders, weavers, grinders, technicians, quality controllers, assemblers,... where they can all live, together with their families. There's also medical care, free English lessons, sport activities, and even a kindergarten for the little ones. So the Royal Botania plant, is much more than just a high end furniture factory, it is a big, happy community!

"A HAPPY COMMUNITY!"

OUR TEAK PLANTATION

Door de enorme stabiliteit, de bekende weerstand tegen de elementen, de aantrekkelijke kleur en structuur, wordt teakhout algemeen beschouwd als de nobelste van alle houtsoorten. Natuurlijk selecteren wij alleen het allerbeste rijpe teakhout voor onze producten. Ons toegewijde team waakt voortdurend over de volledige traceerbaarheid tot aan de oorsprong van elk stukje hout dat bij onze productie wordt gebruikt. Omdat wij vinden dat er meer aan de planeet moet gegeven worden dan dat wij consumeren, heeft Royal Botania de Green Forest Plantation Co opgezet in 2011, een plantage met een oppervlakte van ongeveer 200 hectare. Tussen 2011 en 2014 werden er meer dan 250.000 teakbomen geplant. Ze doen het goed en groeien sterk. Zo zullen onze toekomstige generaties ook deze natuurlijke schat, Tectona Grandis, kunnen oogsten en waarderen.

Particulièrement stable et résistant, le bois de teck qui est également considéré comme l'une des essences les plus nobles, attire aussi bien par sa couleur que par sa texture. Nous sélectionnons uniquement les arbres les plus matures. Notre équipe passionnée assure la tracabilité de chaque pièce de bois utilisée pour la fabrication de nos produits, jusqu'à l'origine. Nous assumons nos responsabilités et nous souhaitons rendre à la planète ce que nous consommons, c'est pourquoi Royal Botania a créé la Green Forest Plantation Co. en 2011 par la mise en place d'une plantation d'environ 200 hectares. Entre 2011 et 2014, plus de 250 000 tecks ont été plantés. Ils poussent très bien. Les générations futures auront donc la chance de récolter et de travailler ce trésor naturel également connu sous le nom de Tectona Grandis.

Dada su gran estabilidad, su afamada resistencia a las inclemencias del tiempo y su atractiva tonalidad y estructura, muchos consideran que la madera de teca es de las más nobles del mundo. Sobra decir que solo seleccionamos los mejores árboles y los más maduros para fabricar nuestros productos. Nuestro equipo controla de manera constante la trazabilidad de todos y cada uno de nuestros productos. Así podemos saber de dónde proviene la madera que empleamos. Además, como creemos que es nuestra obligación devolverle al planeta más de lo que él nos da, Royal Botania fundó Green Forest Plantation Co. en 2011 y puso en marcha una plantación cuya superficie ronda las 200 hectáreas. Entre 2011 y 2014, allí se plantaron más de 250 000 Tectona grandis (o tecas). Y están creciendo fuertes y robustas. De esta forma, las generaciones futuras también podrán cuidar y apreciar este tesoro nacional.

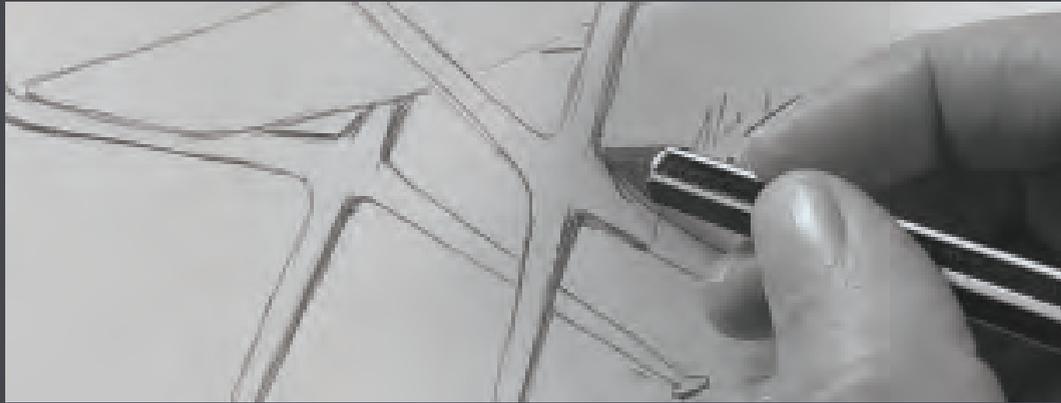

Aufgrund seiner enormen Stabilität, seiner besonderen Widerstandsfähigkeit, seiner ansprechenden Färbung und Struktur gilt Teakholz allgemein als das Edelste aller Hölzer. Natürlich verwenden wir für unsere Produkte nur Teakholz, das unseren Ansprüche an höchste Qualität genügt. Unser engagiertes Team überwacht konsequent die lückenlose Rückverfolgbarkeit jedes einzelnen Holzstücks, das in unserer Produktion verwendet wird. Ebenso ist Nachhaltigkeit eines unserer Handlungsprinzipien bezüglich der Ressourcen-Nutzung. Um die Regenerationsfähigkeit von Teakholz zu gewährleisten haben wir Royal Botania - die Green Forest Plantation Co. ins Leben gerufen. Diese Organisation hat im Jahr 2011 eine Teakholz-Plantage mit einer Fläche von etwa 200 Hektar aufgeforstet. Zwischen 2011 und 2014 sind dort über 250.000 Teakbäume gepflanzt worden, die kontinuierlich wachsen. So stellen wir sicher, dass auch die Bedürfnisse künftiger Generationen berücksichtigt werden.

Data la sua enorme stabilità, la sua nota resistenza alle intemperie e la sua affascinante tonalità e struttura, il tek è ampiamente considerato come il più nobile di tutti i tipi di legno. Ovviamente, per i nostri prodotti, selezioniamo solo il miglior tek maturo. Il nostro team dedicato controlla costantemente la completa tracciabilità di ogni singolo pezzo di legno utilizzato nei nostri reparti di produzione partendo dalle origini. Poiché riteniamo un nostro dovere dare al pianeta più di quanto consumiamo, Royal Botania ha istituito la Green Forest Plantation Co. nel 2011 e ha creato una piantagione con una superficie di circa 200 ettari (500 acri). Tra il 2011 e il 2014, vi sono stati piantati oltre 250.000 alberi di tek. Stanno benissimo e crescono bene. Così, le nostre future generazioni saranno in grado di raccogliere e apprezzare questo tesoro naturale chiamato Tectona Grandis.

Due to its enormous stability, its renowned resistance to the elements, its attractive hue and structure, teakwood is widely considered the noblest of all wood species. Obviously we only select the very best mature teakwood for our products. Our dedicated team constantly monitors the legality and the full traceability back to the origin, of every single piece of wood used in our production. As we consider it our obligation, to give more to the planet, than we consume, Royal Botania has set up Green Forest Plantation Co. in 2010, and created a plantation with a surface area of about 200 hectares (i.e. 500 acres). Between 2011 and 2014, over 250.000 teaktrees were planted there. They are doing great, and are growing well. Thus our future generations will also be able to harvest and appreciate this natural treasure, called Tectona Grandis.

WE PLANTED OVER 250.000 TEAK TREES!

Elk ontwerp van Royal Botania is gebaseerd op 3 belangrijke elementen; esthetiek, ergonomie en engineering. Zij bepalen het DNA van elk concept. Het mengen van deze ingrediënten en het fine-tunen van hun evenwicht is ons basisrecept. Het oog voor details en de verfijnde afwerking zijn de saus. Met deze formule heeft ons in-house designteam, onder leiding van oprichter Kris Van Puyvelde, internationale waardering geost en meerdere designprijzen gewonnen aan beide kanten van de Atlantische Oceaan. Daarnaast doen wij beroep op het talent van door ons zorgvuldig geselecteerde externe ontwerpers om onze horizon te verbreden. Al deze creativiteit heeft geleid tot een breed gamma charismatische producten, bekend als de Royal Botania-collectie.

Tous les modèles Royal Botania sont développés selon trois principes clés : l'esthétisme, l'ergonomie et la technicité. Ces valeurs sont au cœur de nos créations originales. En combinant ces trois facteurs, nous obtenons des modèles raffinés et équilibrés. Notre sens du détail et les finitions exceptionnelles donnent vie à de véritables œuvres d'art. Grâce à cette formule magique, notre équipe de créateurs menée par Kris Van Puyvelde est aujourd'hui reconnue sur la scène internationale et a été primée à plusieurs reprises des deux côtés de l'Atlantique. Nous faisons également appel au talent de créateurs extérieurs afin d'élargir nos horizons. Toute cette énergie alliée à une créativité débordante nous permet de vous proposer des produits de charme dans cette collection Royal Botania.

Todos los diseños de Royal Botania comparten tres elementos clave: estética, ergonomía e ingeniería. Esos tres aspectos forjan el ADN de todos nuestros diseños. Nuestra receta consiste en mezclar esos ingredientes y lograr el equilibrio perfecto entre ellos. La pasión por los detalles y el acabado exquisito son la guinda del pastel. Con esa forma de trabajar, el equipo de diseño, encabezado por nuestro fundador Kris Van Puyvelde, se ha hecho con el reconocimiento de la comunidad internacional y ha ganado múltiples premios de diseño a ambos lados del Atlántico. Asimismo, contratamos de forma muy minuciosa a diseñadores externos para ampliar nuestros horizontes. Toda esa creatividad nos permite crear una amplia gama de productos con personalidad propia: la colección Royal Botania.

Jedes Konstruktion und Gestaltung von Royal Botania Produkten basiert auf drei Schlüsselementen: der Ästhetik, der Ergonomie und der Bautechnik. Diese Bausteine bestimmen die DNA jedes einzelnen Entwurfs. Die Kombination dieser grundlegenden Elemente mit gleichzeitiger Feinabstimmung ist unser Erfolgsrezept. Ein gutes Auge fürs Detail, solide Verarbeitung und ein perfektes Finish liefern ein optimales Ergebnis. Mit dieser Formel hat unser internes Designteam unter der Leitung von Kris Van Puyvelde internationale Anerkennung und Design-Preise erlangt. Ferner binden wir Talente sorgfältig ausgewählter externer Designer ein, um unseren Erfahrungshorizont zu erweitern. All dies hat zu einer breiten Palette inspirierend-kreativer, hochwertiger Produkte geführt, die als Royal Botania-Kollektion bekannt ist.

Ciascuno dei design di Royal Botania si basa su 3 elementi chiave; estetica, ergonomia e ingegneria. Questi determinano il DNA di ogni singola concezione. Unire insieme questi ingredienti, perfezionandone al tempo stesso l'equilibrio, è la nostra ricetta base. La cura nei dettagli e le pregevoli finiture rappresentano decorazioni complementari. Grazie a questa formula, il nostro team interno di design, guidato dal nostro fondatore Kris Van Puyvelde, ha guadagnato l'apprezzamento internazionale e vinto diversi premi di design su entrambe le sponde dell'Atlantico. Inoltre, ci avvaliamo del talento di designer esterni accuratamente selezionati, per ampliare i nostri orizzonti. Tutta questa creatività ha dato vita a un'ampia gamma di prodotti carismatici, conosciuti come la collezione Royal Botania.

OUR DESIGNS

Each Royal Botania design, focusses on 3 key elements; aesthetics, ergonomics and engineering. They determine the DNA of every single concept. Blending these ingredients together, while fine-tuning the balance, is our basic recipe. The eye for details and the exquisite finish come as complementary toppings.

With this formula, our in-house design team, led by our founder Kris Van Puyvelde, has earned international appreciation, and won multiple design awards on both sides of the Atlantic. Additionally we engage the talents of carefully selected freelance designers, to broaden our horizon. All of this creativity has resulted in a wide range of charismatic products, rich in variety, known as the Royal Botania collection.

CONVIVIAL CONCRETE

In een moderne setting van zachte betonschakeringen komen alle voorwerpen die zich daarin bevinden, helemaal tot hun recht. De dikke, stevige muren contrasteren met de vormen van de omringende natuur en de kleur gaat perfect in de omgeving op. Als het warme zonlicht de muren raakt, laden de muren zich op met die energie. Daarna geven ze een warme gloed af tot lang na zonsondergang. Dat zijn nog maar enkele redenen waarom we onze meubels graag tegen een betonnen achtergrond fotograferen.

Un décor contemporain en béton avec des tons doux met en valeur tous les objets qui s'y trouvent. Les murs épais et solides contrastent avec les formes de la nature environnante, et la couleur s'y intègre parfaitement. Frappés par la lumière du soleil, les murs accumulent l'énergie nécessaire pour diffuser leur chaleur encore longtemps après le coucher du soleil. Ce ne sont là que quelques-unes des raisons pour lesquelles nous aimons photographier nos meubles dans un décor en béton.

Un escenario contemporáneo de hormigón en tonos tenues realza todos los objetos que incluye. Las paredes robustas y sólidas contrastan con las formas de la naturaleza circundante, a la vez que el color se integra a la perfección. Al estar bañadas por la cálida luz solar, las paredes acumulan energía para devolver un acogedor resplandor hasta mucho después de la puesta de sol. Estas son solo algunas razones por las que nos encanta fotografiar nuestros muebles sobre un fondo de hormigón.

Eine zeitgenössische Umgebung aus zart getöntem Beton hebt alle darin befindlichen Objekte hervor. Dicke, massive Wände stehen im Kontrast zu den Formen der umgebenden Natur, wobei sich die Farbe optimal in die Umgebung einfügt. Durch das warme Sonnenlicht werden die Wände mit Energie geladen, so dass sie bis lange nach Sonnenuntergang einen warmen Schein abgeben. Diese Aspekte stellen nur einige Gründe dar, warum wir unsere Möbel so gerne vor einem Betonhintergrund fotografieren.

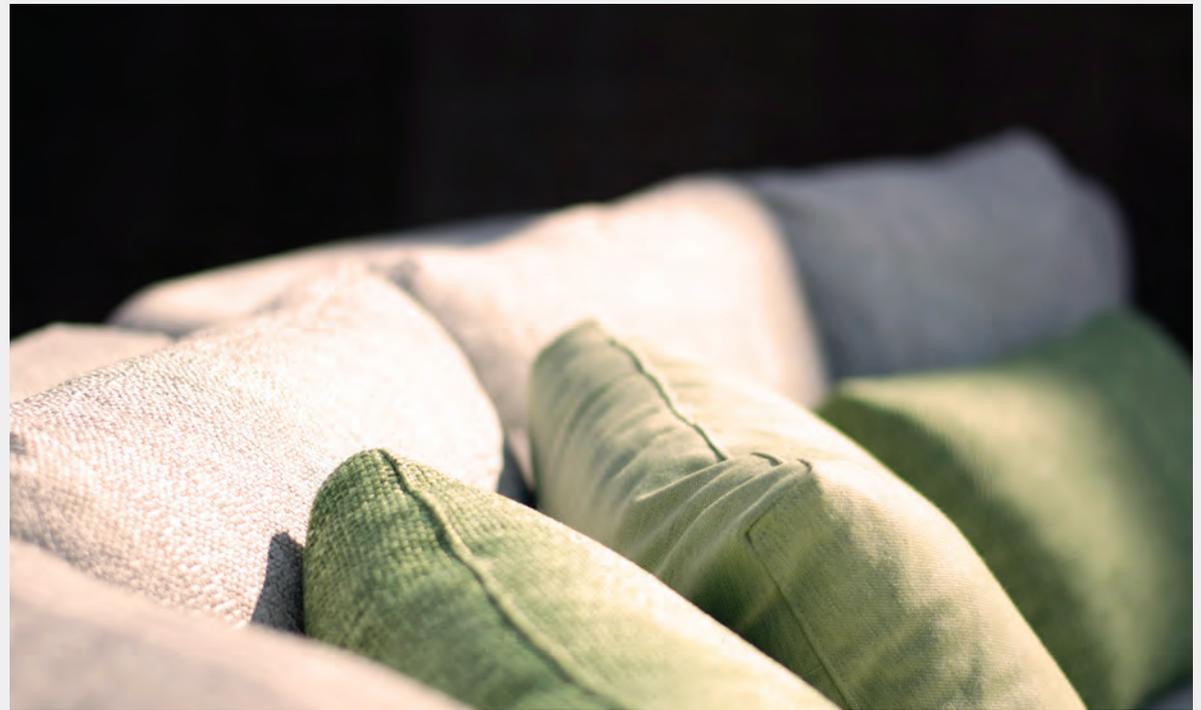

un ambiente moderno realizzato in cemento dai toni delicati dona risalto a tutti gli elementi che racchiude. Mentre le pareti, solide e robuste, creano un contrasto con la natura circostante, il colore vi si fonde armoniosamente. Lambite dalla calda luce solare, le pareti si caricano di energia che trasmettono ben oltre il tramonto in un caldo riflesso. Anche per questo amiamo utilizzare il cemento come sfondo per fotografare i nostri arredi.

A contemporary setting of soft-toned concrete sets off all the objects within it. Thick, solid walls contrast with the shapes of the surrounding nature, while the colour blends in perfectly. Hit by warm sunlight, the walls accumulate the energy to give a warm glow till long after sunset. These are just a few reasons why we love to photograph our furniture against a concrete backdrop.

GRACEFUL GREEN

Groen is niet alleen het symbool van vruchtbaarheid, hoop, leven en de toekomst. Het is vooral de kleur van de natuur. Baadt je buitenruimte weelderig in het groen? Waar wacht je dan op om je terras om te toveren tot je favoriete plek om van al die schoonheid te genieten? We reiken je graag alle mogelijkheden aan om dat in optimaal comfort en met stijl te doen.

La couleur verte n'est pas seulement symbole de fertilité, d'espoir, de vie et d'avenir. Le vert représente avant tout la nature. Si votre espace extérieur est entouré d'un écrin de verdure, vous devriez faire en sorte que votre terrasse devienne votre endroit préféré pour en apprécier la beauté. Nous sommes heureux de vous offrir les éléments nécessaires pour réaliser votre projet avec un confort et un style exclusifs.

El color verde no es únicamente el símbolo de la fertilidad, la esperanza, la vida y el futuro. Por encima de todo, representa la naturaleza. Y si su espacio al aire libre está rodeado de exuberantes verdes, entonces su terraza debería convertirse en su lugar favorito desde el cual contemplar toda su belleza. Estamos encantados de ofrecerle los medios para conseguirlo, siempre desde la excelencia en confort y estilo.

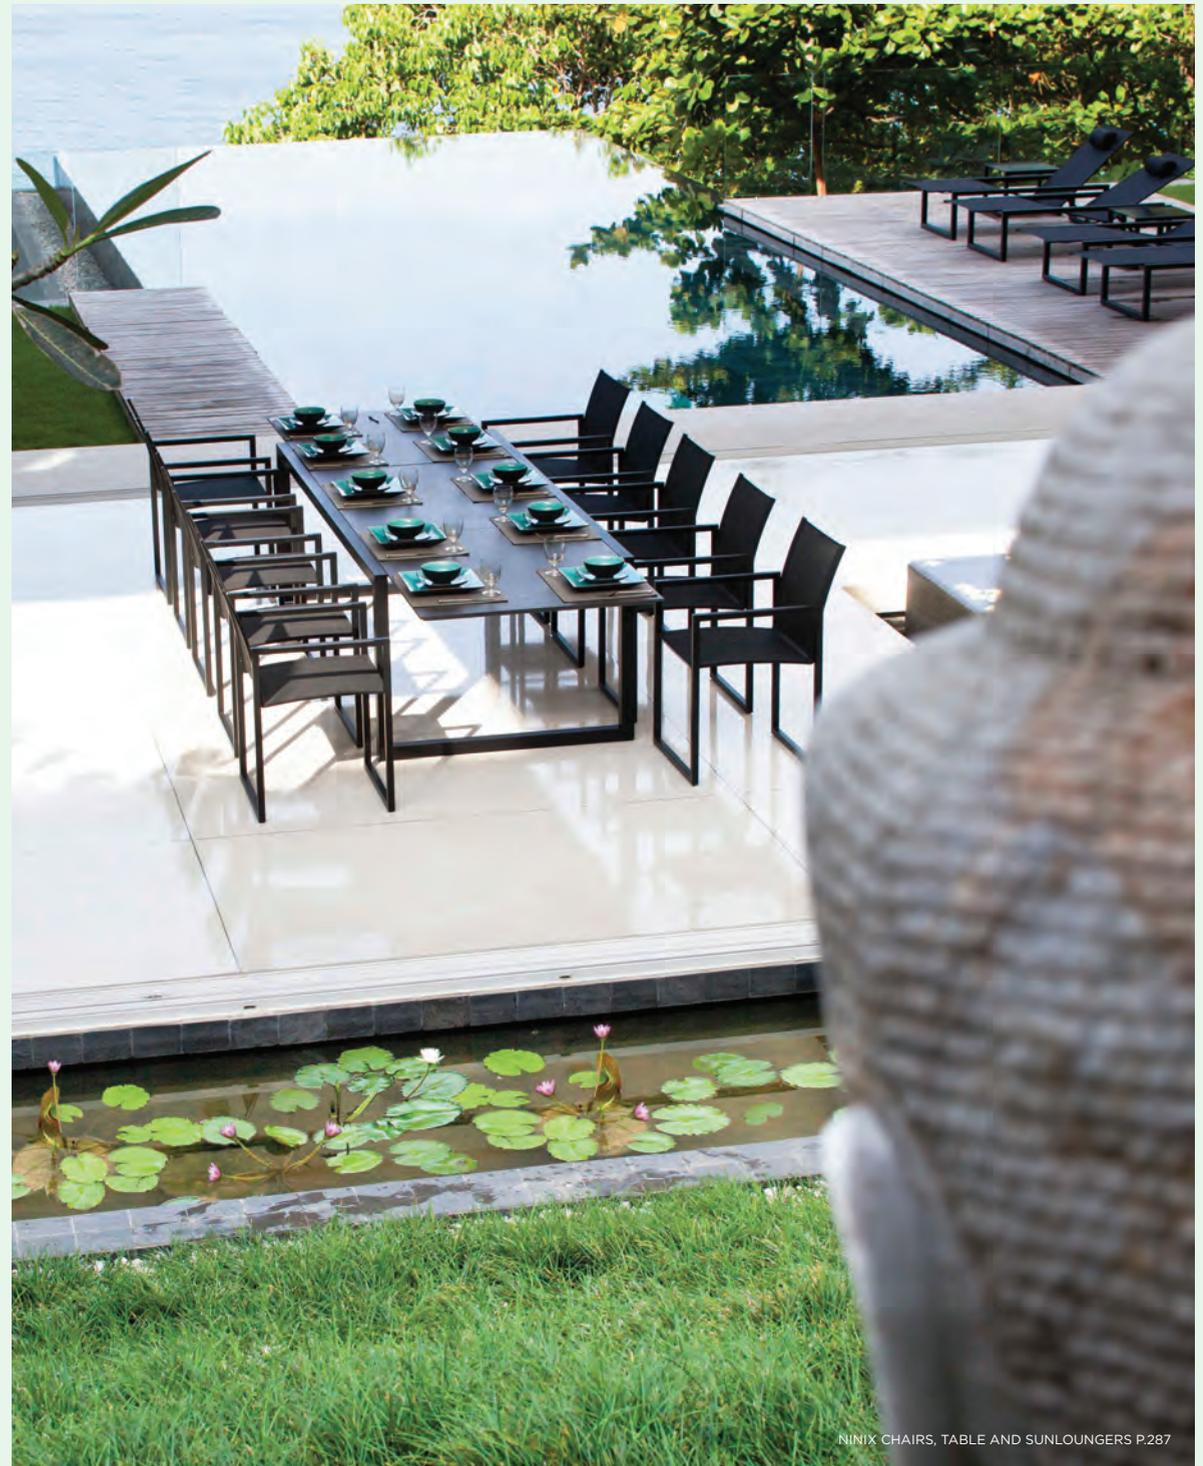

Die Farbe Grün symbolisiert nicht nur Fruchtbarkeit, Hoffnung, Leben und Zukunft. Vor allem steht sie für die Natur. Und sollte Ihr Außenbereich von üppigem Grün umrahmt sein, dann sollte Ihre Terrasse zu Ihrem Lieblingsplatz werden, von dem aus Sie seine Schönheit genießen können. Wir sind froh, dass wir Ihnen die Werkzeuge dafür in höchstem Komfort und Stil anbieten können.

Il verde è emblema di fertilità, speranza, vita, ma è soprattutto il colore della natura. Se i vostri spazi esterni sono immersi in un verde rigoglioso, la terrazza dovrebbe diventare lo spazio ideale da cui godere la bellezza. È con piacere che vi offriamo gli elementi per realizzare questo sogno, il tutto con stile e massimo comfort.

The colour green isn't only the symbol of fertility, hope, life and the future. Above all it represents nature. And if your outdoor space is surrounded by lush green, then your terrace should be turned into your favourite spot from which to enjoy its beauty. We are glad to offer the tools to do that in ultimate comfort and style.

TUSCAN TOUCH

Glooiende landschappen bekleed met groene wijngaarden en eeuwenoude olijfbomen. Kronkelende wegeltjes met statige cipressen als erehaag. Heuveltoppen bezaaid met pittoreske okerkleurige dorpjes, badend in pastelgeel zonlicht. Toscane is met zijn rijke cultuur en keuken zonder twijfel een van de meest romantische streken op aarde. En bij ons vind je de meubels die naadloos bij al die schoonheid passen.

habillés de vignes vertes et de vieux oliviers. Des routes sinueuses gardées par de fiers cyprès. Des collines parsemées de pittoresques villages aux tons caramel qui baignent dans une douce lumière jaune. Dotée d'une culture riche et d'une cuisine généreuse, la Toscane est sans aucun doute l'une des régions les plus romantiques du monde. Nous proposons un mobilier qui s'accorde parfaitement avec toute cette beauté.

Paisajes ondulantes revestidos con verdes viñedos y olivares centenarios. Caminos sinuosos custodiados por soberbios cipreses. Cumbres salpicadas de pintorescos pueblecitos color caramelo bañados por una luz solar en suaves tonos amarillos. La Toscana, con su rica cultura y succulenta cocina, es sin lugar a dudas una de las regiones más románticas del planeta. Ponemos al alcance de su mano el mobiliario que se funde tan delicadamente con toda esa belleza...

Hügellandschaften, die mit grünen Weinbergen und antiken Olivenbäumen bedeckt sind. Kurvenreiche Straßen, die von stolzen Zypressen bewacht werden. Hügelspitzen mit pittoresken Karamelldörfern, die in zartgelbem Sonnenlicht baden. Zweifellos zählt die Toskana mit ihrer reichen Kultur und Küche zu den romantischsten Regionen der Erde. Wir bieten die Möbel, die sich so wunderbar in all diese Schönheit integrieren...

dolci declivi ricoperti di vigneti e ulivi secolari. Stradine che serpeggiano all'ombra di maestosi cipressi. Colline costellate di paesini dai colori tenui, baciati dalla luce gialla del sole. La Toscana, rigogliosa di cultura e buona cucina, è senza dubbio una delle regioni più affascinanti al mondo. Il nostro arredamento si incastona perfettamente in questa bellezza.

Sloping landscapes, clad with green vineyards and old olive trees. Winding roads guarded by proud cypresses. Hilltops dotted with picturesque caramel villages, bathing in soft yellow sunlight. Tuscany, with its rich culture and cuisine, is beyond any doubt one of the most romantic regions on earth. We offer the furniture that blends so nicely into all this beauty...

MEDITERRANEAN MEDITATION

Mare media terra, of de zee in het midden van het land. Voor de Romeinen was de Middellandse Zee gewoon 'mare nostra', want zij controleerden de hele omliggende kustlijn. Een kustlijn met de grootste concentratie van oude cultuursteden en de meest diverse verscheidenheid aan prachtige landschappen. De warme zomers en milde winters trekken miljoenen mensen uit de hele wereld aan om er op vakantie te gaan en er te genieten in een prachtig zomerverblijf aan wal, of op een luxejacht op zee. Wat je voorkeur ook is, wij hebben de perfecte stoelen, de meest comfortabele ligbedden, de elegantste parasols en de ultieme loungesets voor jouw plezier.

'Mare media terra', ou la mer au milieu de la terre. Pour les Romains, la mer méditerranée était tout simplement la 'mare nostra' (notre mère), car ils contrôlaient tout le littoral environnant. Ce littoral possède à la fois la plus grande concentration de cités culturelles anciennes et la plus grande variété de paysages époustouflants. Les étés chauds et les hivers doux attirent des millions de personnes du monde entier pour y passer leurs vacances dans de belles résidences d'été ou sur des yachts luxueux en mer. Quelles que soient vos préférences, nous vous proposons les chaises les mieux assorties, les transats les plus confortables, les parasols les plus raffinés et les ensembles lounge les plus exclusifs.

El Mediterraneum mare, formado por los términos latinos medius, terra y mare, o «el mar situado en medio de la tierra». Para los romanos, el mar Mediterráneo era simplemente el Mare Nostrum, ya que ellos controlaban la costa circundante al completo. Se trataba de una costa que no solo albergaba la mayor concentración de antiguas ciudades culturales, sino que también ofrecía la más amplia variedad de escenarios espectaculares. Sus cálidos veranos y sus suaves inviernos atraen a personas de todo el mundo para pasar sus vacaciones, que se disfrutan en hermosas residencias de verano junto a la orilla o navegando en lujosos yates en altamar. Sea cual sea su preferencia, ponemos a su disposición las sillas más ideales, las tumbonas más confortables, las sombrillas más elegantes y los conjuntos de salón más fabulosos.

Mare media terra, oder das Meer im Zentrum des Landes. Das Mittelmeer galt bei den Römern einfach als "mare nostra", da sie die gesamte umgebende Küstenlinie kontrollierten. Eine Küstenlinie mit sowohl der größten Konzentration an alten Kulturstädten als auch der größten Vielfalt an atemberaubenden Landschaften. Millionen von Menschen werden von den warmen Sommern und milden Wintern zum Urlaub angezogen, den sie in schönen Sommerresidenzen an der Küste oder auf Luxusyachten auf See verbringen. Unabhängig davon, was Sie bevorzugen, bieten wir Ihnen die idealen Stühle, die bequemsten Sonnenliegen, die raffiniertesten Sonnenschirme und die ultimativen Lounge-Sets.

mare media terra, il mare in mezzo alle terre. Per gli antichi romani, che ne dominavano le coste, il Mare Mediterraneo era tout court il 'mare nostrum'. La sua fascia costiera vanta la più grande concentrazione di antiche città di interesse culturale e la più straordinaria varietà di paesaggi mozzafiato. Le estati calde e gli inverni miti richiamano milioni di visitatori da tutto il mondo, che qui trascorrono le loro vacanze in superbe residenze estive sul mare oppure solcando i mari su lussuosi yacht. Qualunque siano le vostre preferenze, noi abbiamo per voi le sedie perfette, sdrai ultra-confortevoli, eleganti ombrelloni e moderni set di lounge.

Mare media terra, or the sea in the middle of the land. For the Romans, the Mediterranean Sea was simply 'mare nostra', as they controlled the entire surrounding coastline. A coastline boasting both the biggest concentration of old cultural cities and the widest variety of stunning scenery. The warm summers and mild winters attract millions of people from all around the globe for their holidays, which they enjoy in beautiful summer residences on shore, or cruising on luxury yachts at sea. Whatever your preference, we have the perfect chairs, the most comfortable sunbeds, the most refined umbrellas and the ultimate lounge sets for you.

MATERIALS

TEAK & MAHOGANY

As Royal Botania never compromises on quality, only carefully selected mature (>75 years) teakwood is used in our products. All of it harvested in strict accordance with our environmental policies. Teak wood's renowned durability is due to its high content of natural oils. The limited absorption of moisture protects the wood from warping and gives it enormous stability. In addition, teak is highly resistant to attacks by pests. It is because of these qualities, as well as its exceptionally attractive hue and structure, that teak is widely considered "the noblest of all wood types".

Mahogany is a hardwood with a reddish color that is ideal for the manufacture of furniture. Mahogany is also often used in boat building.

STAINLESS STEEL

Stainless steel is a ferrous alloy with increased corrosion resistance due to the addition of chrome and nickel. Chlorine, the greatest enemy of RFS, can cause a type of corrosion known as "pitting". For this reason, it is recommended that in coastal locations the metal be given a surface as smooth as possible in order to further increase its resistance to corrosion. The furniture frames of the Wave is supplied with an electropolished finish as standard.

For the Ninix, O-Zon, QT & Taboela ranges we recommend the optional electropolishing treatment of the frame if it is to be used in a corrosive environment.

CONCRETE

We use an ultra-high performance concrete reinforced by natural mineral components and organic fibers. Thanks to its discontinuous pore structure and crack-bridging fibers, it is virtually impervious. Penetration of chloride ions is also significantly reduced and thus performs exceptionally well in highly corrosive environments such as near beaches.

The slings on metal framed chairs and loungers are made of Batyline® fabrics, a woven polyester fibre protected by a PVC coating. This coating guarantees exceptional resistance to climatic conditions and UV exposure. The fact that there is no moisture absorption results in quick-drying, little sensitivity to staining and easy cleaning.
